Concept

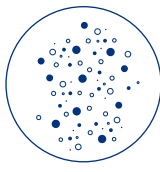

RETHINKING OUR USE OF ENVIRONMENTALLY HARMFUL MATERIALS IS A TASK THAT WE ALL HAVE TO SOLVE TOGETHER.

THE SHOE RANGE MADE OF PET BOTTLES FROM COZY BY MARIO S IS A CONCRETE STEP IN THE RIGHT DIRECTION.

MARIO S HAS A NEW COLLECTION THAT USES RECYCLED PLASTIC FOR MANUFACTURING, MAKING CONTRIBUTION TO SUSTAINABILITY.

Collecting used post-consumer plastic such as plastic bottles

Then it is washed and then shredded into granules.

This is melted, pressed and processed into long fibers.

These fibers are spun into a malleable, robust thread.

That becomes a highly functional fabric for shoes.

A ecological dyed and finished fabric based on saving water and energy, completing a vertical, eco-friendly process.
